FANUC wrist repair service

FULL SERVICE REPAIR MANAGEMENT

What we offer

- Complete remanufacturing of your wrists
- 100% original equipment manufacturer quality
- European wide support
- Full preventative check including the replacing of all wear parts
- Automated cleaning and repainting

YOUR ADVANTAGES

- Reduced downtime
- Minimized maintenance cost
- Quick, high quality repair service
- Each component as new and with OEM warranty
- Unrivalled quality at a competitive price
- Complete component stock for immediate repair

One supplier for all your repair needs

Capable of repairing almost anything FANUC produces, and with a vast array of exchange parts on its shelves, the FANUC Repair Center is dedicated to getting your machines up and running again as quickly as possible.

Offering centralised OEM repair services, the Center is strategically located in Luxembourg to minimize transport times across Europe.

Service First
