

THE FACTORY AUTOMATION COMPANY

**FANUC**

# CNC Simulator

Hands-on learning  
for the future of  
machine tool operators

# CNC expertise for schools and universities

## All the core skills contained in a dedicated CNC unit

At FANUC, we're passionate about automation. Contributing massively to manufacturing efficiencies, automated solutions drive productivity, enhance quality and minimise costs.

Given the exciting future facing the industry, we're also passionate about education. That's why we've put together the FANUC CNC Simulator. Designed with students in mind, it enables young people to gain first-hand experience of programming and operating cutting-edge CNC for milling and turning. Function set is highly relevant for machine tool applications and contains everything instructors and students require for teaching and learning purposes.

## FEATURES

### CNC Simulator unit for training of operation by actual FANUC Series 0i-F

- Ready for use without setup
- All functions available
- Milling and Lathe system switchable on one simulator  
Milling system: Servo 3 axes, Spindle 1 axis  
Lathes system: Servo 2 axes, Spindle 1 axis
- MANUAL GUIDE *i* installed for easy programming
- Equipped with E-stop switch, manual pulse generator, feed override, and universal power unit
- Possibility to connect to a computer network
- Easy to carry

MFL-02562-EN

**Why choose FANUC?** Because machine builders around the world trust in FANUC CNC systems and the knowledge that comes with 60 years of experience in the continuous development of CNC technology. More than 3.7 million FANUC CNC systems installed worldwide bear witness to FANUC quality. A track record you can rely on.

We reserve the right to make technical changes without prior announcement.
