

FANUC

Long reach, fast accurate welding

LONG ARM

for longer reach to work on bigger workpieces and cover a wider area

10 KG PAYLOAD
perfect for additional toolings

LARGE HOLLOW WRIST
and hollow arm

SLIM AND CURVED J2 ARM
to minimise interference

SMOOTH SURFACES
to minimise dust and dirt collection

FULLY INTEGRATED WELDING HOSEPACK
and cable management

NEW

ARC Mate 100iD/10L

Next generation welding – ultimate precision

- high productivity and precision thanks to higher rigidity
- compact and fully articulated to reach narrow spaces in machine tools or jigs
- smooth appearance with minimum fastener bolts exposed, reducing dust and dirt collection
- large hollow 57mm for hose pack routing as well as additional utilities
- intelligent maintenance schedule with FANUC Zero Downtime function that predicts mechanical and process equipment status
